W. T. GARNER

LAPE MORGAN

William C. Long.

### Democrats and the Tariff

There is no difficulty in understanding the democratic position on the tariff. We get our information as to how Gov. Wilson, Champ Clark and Oscar Underwood stand on the tariff from the columns of the Outlook. In the past year, the Outlook magazine of New York, asked each of these men, leaders of the democratic party, for an authorized interview. Each one responded with an interview of five or six pages in length, giving in detail their stand on the public questions of the day. All three agree in a general way as to what the democratic party should do with regard to the tariff question. They take the position that as the entire world is under the protective system and that as the tariff walls of the United States have been built up for many decades, and that as the business of the country is so adjusted to the present tariff schedules, it is a serious and difficult question how to begin work to revise downward the tariff schedules. Mr. Underwood has often used the figure of the jack-screw. He states that the tariff is up on stilts, very much like a house elevated 20 or 30 feet above its foundation. Mr. Underwood explains that if we were to knock the props out from under the house and let it down suddenly, there would, of course, be general ruin and destruction. Sensible men, therefore, use the jack-screw to bring the house down slowly and gradually to the proper level. This is analogous to the method by which the tariff must be brought down. Gov. Wilson also takes the view that democrats will have to stand for protective schedules as a temporary expedient for a number of years and that the question of free trade is not an issue at all. He even takes the view that a revenue tariff is not an immediate issue. The republican cry of free trade is the veriest tommyrot and designed only to catch the unthinking and ignorant.

The only thing that can keep Gov. Woodrow Wilson from being elected president of these United States on the 5th of November will be a feeling of over-security on the part of democratic voters. Every democrat who loves his country and his party must vote this time.

### Honor Roll of Lincoln Democrats

In response to the appeal to public spirited citizens to co-operate with Woodrow Wilson in his intention to accept no money from self-seeking interests, in the financing of the campaign, the I. J. has opened an Honor Roll of those citizens who are willing to assist in the good fight. Checks should be made payable to W. O. Davis, Treas., and all received will be acknowledged by the I. J. in these columns and forwarded to the campaign treasurer. Contributions so far received are: Previously reported .....\$72.50 A friend ..... 1.00 J. C. Bailey ..... 1.00

## WOMEN TAKE NOTICE!

A man cannot understand the torture and suffering many women endure uncomplainingly. If the majority of men suffered as much pain and endured with patience the weakening sicknesses that most women do, they would ask for immediate sympathy and look for a quick cure.

Many women have been saved from a life of misery and suffering by turning to the right remedy—Dr. Pierce's Favorite Prescription—a remedy which is safe to take because containing no narcotics, alcohol or injurious ingredients. It is an alternative extract of roots, made with pure glycerin, and first given to the public by that famous specialist in the diseases of women—Dr. R. V. Pierce, of the Invalids' Hotel and Surgical Institute of Buffalo, N. Y.

MRS. LIZZIE M. HERSHIMER, of Lincoln, Neb., 320 \*C\* St., says: "I send a testimonial with much pleasure so that some suffering woman may know the true worth of your remedies. I was a great sufferer from female troubles but after taking one bottle of Dr. Pierce's Favorite Prescription, which a friend advised me to take, I found myself very much improved. After taking three more bottles, and using two boxes of Dr. Pierce's Lotion Tablets, I found myself on the road to recovery. I was in poor health for five years but now I am cured. I hope all women suffering from female weakness will give Dr. Pierce's Favorite Prescription a fair trial."

Doctor Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

### Marksbury

Wm. Tuggle sold 20 150-pound hogs to Vic Lear, the Lancaster buyer at 6 3-4 cents a pound.

Clate Marsee recently purchased two acres of improved land for \$1,075, about two and a half miles from Lancaster on the Danville pike. Mr. Marsee, who has been living at Marksbury, moved last week to his new home.

Rev. Bell, of Sulphur Well, began a series of meetings with the pastor of Pleasant Grove church Monday night, which will continue for several days.

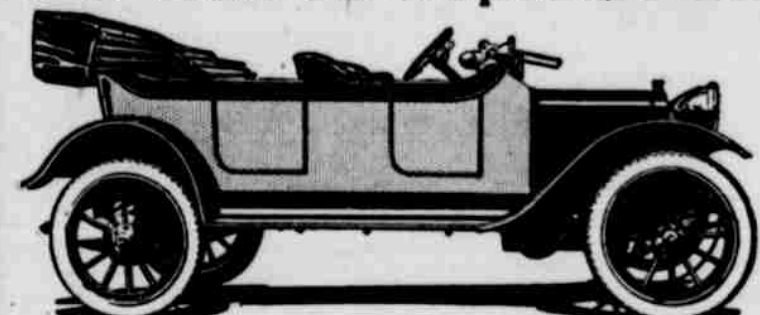

The acetylene lights went out at the church a few evenings ago, leaving the amused congregation in to-

tal darkness. The sexton on being asked next morning what was the matter with the lights replied "There was something the matter with the cowboy." (Carbide).

Rev. Mahan baptized three candidates last Sunday afternoon, one of whom was the result of the meeting just closed with the church here. The other two will be received as members of the Mt. Hebron church.

Mrs. W. P. Jenkins, of Louisville, came here a few days ago to join her husband, who has been holding a meeting here. After a short visit to friends in Georgetown, they will return home the latter part of the week.

## R-C-H "TwentyFive" \$900

THE beauty, the easy riding qualities, the comfort and the wonderful equipment of the R-C-H are naturally the first things the observer notes. But as the R-C-H owner drives his car month after month, the quality that impresses him most is the inherent, inbuilt sturdiness of the car—its ability to withstand easily all the strain and stress to which a car is put in daily use. This sturdiness is due to the most unrelenting care and attention to every detail of construction: from the selection of the raw material to the completed car. For example, the iron in the R-C-H comes from a mine which was the main reliance of the government in making the powerful Rodman cannon—the dreadnaught guns of civil war fame. Of late years most of the output of this mine has been contracted for by railroads, which find no other iron so suitable to stand the tremendous strain to which car wheels are put. Again, there are 244 separate drop forgings in the R C H. The R C H factory drop-forges every part practicable, including many which no other manufacturer has heretofore attempted. And drop forgings are practically indestructible—which every motorist knows is not true of castings. In every item of R C H construction and equipment the same staunchness, sturdiness dependability is apparent. Time will only make you prouder of your car and its equipments. We're ready to demonstrate the R C H whenever you say the word.

The R C H is an economical car: 23 to 28 miles to a gallon of gasoline. R C H repair parts cost you less than for any other car. The R C H is not a luxury. The Roadster is a business need. You can cover more territory in less time, see more people, do more business and make more money. It will be mighty hard for you with a horse this winter and hard for the horse, too. What other manufacturer has ever delivered 6,000 cars the first 10 months? Let me order your auto supplies.

## Old in Age But Modern in Ways

The FIRST NATIONAL BANK, of Stanford is the oldest institution in this section of the state, having been organized March 9, 1854. A bank to have stood the panics that have occurred in the past 58 years must be all right. This bank today is stronger and better than it ever was.

While old in age it is modern in methods. Our patrons, and they are many, will testify to the fact that we take care of them in a manner both pleasing and satisfactory.

Your patronage is respectfully asked. Remember our pledge of courteous treatment and honorable dealings.

Our directory includes some of the most prominent business men and farmers in this section of the county. Try us.
